DEWA presents its monthly production report, for Bengalon Coal Mining Project in East Kalimantan (BCP), Asam Asam Coal Mining Project in South Kalimantan (ACP) and Satui Coal Mining Project in South Kalimantan (STC), for the period ending January 31, 2020.

PRODUCTION HIGHLIGHTS

- During January 2020, DEWA’s operation in all sites faced heavy rainfall both in frequency and intensity up to 390 mm, resulting in available production hours and limited coal expose due to pre-strip mining process. However, DEWA’s coal delivery increased significantly by 59.22% to 1.70 million tons compared to January 2019.
- DEWA’s January overburden removal volume was recorded at 11.07 million bcm. Several factors that impacted DEWA’s overburden removal were heavy rainfall and muddy material. Meanwhile, DEWA could raise its overburden removal by 21.58% compared to January 2019.
- Mining strip ratio in January was 4.19 for Asam Asam Coal Project, 7.98 for Bengalon Coal Project and 10.79 for Satui Coal Project.
