BRIEF PROFILE OF MR. PRABHAKARAN BALASUBRAMANIAN

Mr. Prabhakaran Balasubramanian, an India citizen, finished his Bachelor of Computer Science Engineering from PSG College of Arts and Science, Tamil Nadu. He holds Certified Private Pilot License (PPL) from Government Aviation Training Institute (GATI), Bhubaneswar.

He is Founder & Managing Director of Thriveni Earth Movers Private Limited, India's reputable mining services company that has been operated for more than 25 years. Its business lines include maintenance, renovation, reconditioning, and engineering of machine tools and heavy equipment. As India's biggest mining company, Thriveni hires more than 8,000 workers globally in 8 countries. Thriveni's production capacity reach 50 million metric tonnes a year, with 300 long-term clients.

Prabhakaran's career in Thriveni started in 1993. During 1993-2000, Thriveni has a lot of cooperation with India's big companies, such as India Cements Ltd, I&T, Madras Aluminum Co, Alagappa Cements, Neyveli Lignite Corporation and Tamil Nadu Minerals Limited.

In 2008-2010, Thriveni started its operation in ore mining. Until 2012, Thriveni could produce 42 million metric tonnes a year, its highest ore mining. In that period of time, Prabhakaran could develop Thriveni from USD5 million to USD200 million revenue. In 2015, Thriveni successfully developed joint venture with Sainik Mining to get NTPV Pakri Barwadih mining block with 15 million tonnes production capacity annually.
